TECHNICAL SKILLS

FRONTEND

React.js | Next.js | React Native | TypeScript | Context API

BACKEND

Node.js | Express.js | REST APIs | JWT Auth

DATABASES

MongoDB | PostgreSQL

MOBILE

React Native | Expo | Flutter | Dart

STYLING

Tailwind CSS | Styled Components | CSS Modules

DEVOPS & CLOUD

Git/GitHub | Vercel | AWS | Docker

TESTING

Jest | React Testing Library | Postman

BUILD TOOLS

Webpack | Vite | npm/yarn

EDUCATION

BS Software Engineering

OBAID ULLAH

MERN Stack Developer | React Native | Next.js

Full Stack Developer with hands-on experience building scalable web and mobile applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), Next.js, and React Native. Proficient in designing RESTful APIs, implementing secure authentication systems, and deploying production-ready applications on AWS and cloud platforms. Experienced with PostgreSQL for relational data management. Strong focus on test-driven development using Jest and React Testing Library. Passionate about clean architecture, performance optimization, and delivering seamless user experiences across platforms.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | Elite Tech Solutions Winter 2025

> Developed and maintained full-stack web applications using React.js, Node.js, and MongoDB

> Built RESTful APIs with Express.js and implemented JWT-based authentication systems

> Collaborated with cross-functional teams to deliver features following Agile methodologies

> Optimized application performance and ensured responsive design across devices

> Participated in code reviews and contributed to improving development workflows

Full Stack Developer Intern | Zenithcraft Ventures

2 Months Internship

> Designed and developed responsive web applications using Next.js and React.js

> Integrated PostgreSQL databases for efficient data management

> Implemented server-side rendering (SSR) and API routes for improved SEO and performance

> Deployed applications to Vercel and managed environment configurations

> Built secure user authentication and real-time features using Node.js

PROJECTS

Grocery E-Commerce Platform

Full Stack Application

COMSATS University
Abbottabad Campus
2023 - Present

> Built a complete e-commerce platform with shopping cart, secure checkout, and payment integration

> Developed mobile app using Flutter/Dart and web application with Next.js and Node.js

> Implemented product catalog with category filtering, search functionality, and inventory management

> Created user authentication system with order tracking and purchase history

> Built admin dashboard for managing products, orders, and user analytics

> Deployed web application on Vercel with optimized performance and SEO

Flutter | Dart | Next.js | Node.js | MongoDB | Vercel

Personal Portfolio Website

Frontend Application

> Designed and developed a responsive portfolio showcasing projects and skills

> Implemented modern UI with smooth animations and interactive navigation

> Optimized for performance, accessibility, and cross-browser compatibility

React.js | Tailwind CSS | Framer Motion

Live: [ADD_LINK]

CORE COMPETENCIES

JSX & Components | React Hooks | Context API | React Router | API Integration | Form Validation | App Router | Server Actions | SSR/SSG | RESTful APIs | Authentication | Unit Testing | AWS Services | CI/CD

AI & MACHINE LEARNING

Coming Soon

Currently expanding expertise in AI/ML technologies.
This section will be updated with relevant skills and projects.
